1. Intellectual levels

The syllabus is designed to progressively broaden and deepen the knowledge, skills and professional values demonstrated by the student on their way through the qualification.

The specific capabilities within the detailed syllabuses and study guides are assessed at one of three intellectual or cognitive levels:

Level 1:	Knowledge and comprehension
Level 2:	Application and analysis
Level 3:	Synthesis and evaluation

Very broadly, these intellectual levels relate to the three cognitive levels at which the Applied Knowledge, the Applied Skills and the Strategic Professional exams are assessed.

Each subject area in the detailed study guide included in this document is given a 1, 2, or 3 superscript, denoting intellectual level, marked at the end of each relevant learning outcome. This gives an indication of the intellectual depth at which an area could be assessed within the examination. However, while level 1 broadly equates with Applied Knowledge, level 2 equates to Applied Skills and level 3 to Strategic Professional, some lower level skills can continue to be assessed as the student progresses through each level. This reflects that at each stage of study there will be a requirement to broaden, as well as deepen capabilities. It is also possible that occasionally some higher level capabilities may be assessed at lower levels.

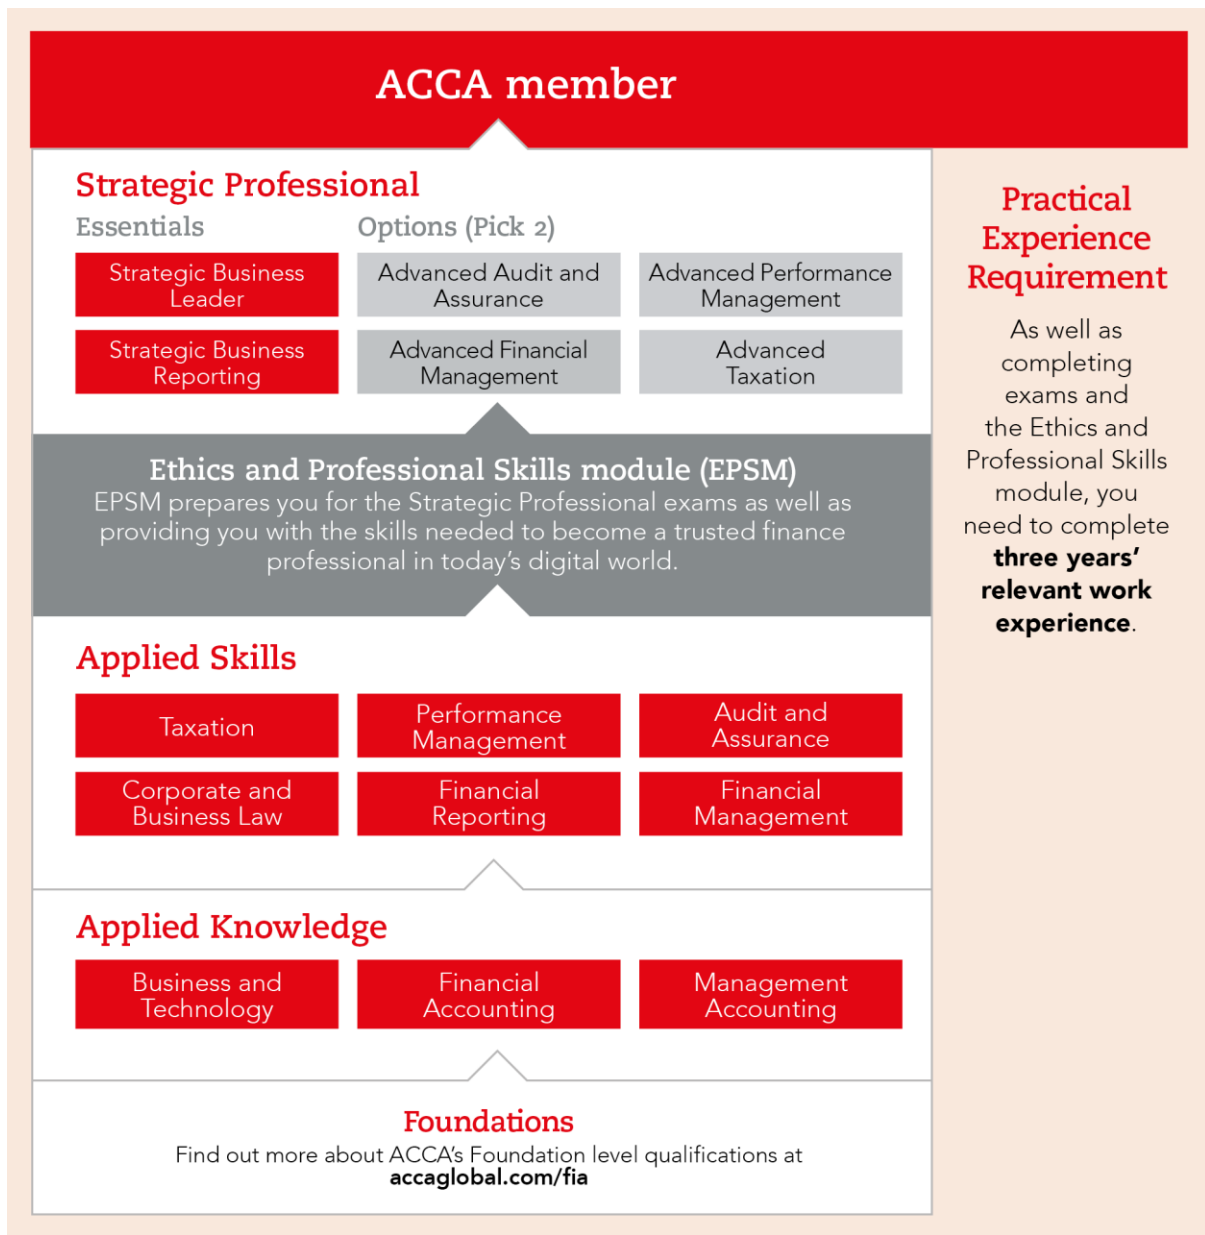

2. Learning hours and education recognition

The ACCA qualification does not prescribe or recommend any particular number of learning hours for examinations because study and learning patterns and styles vary greatly between people and organisations. This also recognises the wide diversity of personal, professional and educational circumstances in which ACCA students find themselves.

As a member of the International Federation of Accountants, ACCA seeks to enhance the education recognition of its qualification on both national and international education frameworks, and with educational authorities and partners globally. In doing so, ACCA aims to ensure that its qualification is recognised and valued by governments, regulatory authorities and employers across all sectors. To this end, ACCA qualification is currently recognised on the education frameworks in several countries. Please refer to your national education framework regulator for further information.

Each syllabus is organised into main subject area headings which are further broken down to provide greater detail on each area.

3. The structure of ACCA qualification

*See accaglobal.com for details

4. Guide to ACCA examination structure and delivery mode

The pass mark for all ACCA Qualification examinations is 50%.

The structure and delivery mode of examinations varies.

Applied Knowledge

The Applied Knowledge examinations contain 100% compulsory questions to encourage candidates to study across the breadth of each syllabus. These are assessed by a two-hour computer based examination.

Applied Skills

The Corporate and Business Law exam is a two-hour computer-based objective test examination for English and Global.

For the format and structure of the Corporate and Business Law or Taxation variant exams, refer to the 'Approach to examining the syllabus' section of the relevant syllabus and study guide.

The other Applied Skills examinations (PM, TX-UK, FR, AA, and FM) contain a mix of objective and longer type questions with a duration of three hours for 100 marks. These are assessed by a three hour computer-based exam. Prior to the start of each exam there will be time allocated for students to be informed of the exam instructions.

The longer (constructed response) question types used in the Applied Skills exams (excluding Corporate and Business Law) require students to effectively mimic what they do in the workplace. Students will need to use a range of digital skills and demonstrate their ability to use spread sheets and word processing tools in producing their answers, just as they would use these tools in the workplace. These assessment methods allow ACCA to focus on testing students' technical and application skills, rather than, for example, their ability to perform simple calculations.

Strategic Professional

Strategic Business Leader is ACCA's case study examination at Strategic Professional and is examined as a closed book exam of four hours, including reading, planning and reflection time which can be used flexibly within the examination. There is no pre-seen information and all exam related material, including case information and exhibits are available within the examination. Strategic Business Leader is an exam based on one main business scenario which involves candidates completing several tasks within which additional material may be introduced. All questions are compulsory and each examination will contain a total of 80 technical marks and 20 Professional Skills marks.

The other Strategic Professional exams are all of three hours and 15 minutes duration. All contain two sections and all questions are compulsory. These exams all contain four professional marks.

From 2020, Strategic Professional exams became available by computer based examination. More detail regarding what delivery mode is available in your market will be on the ACCA global website.

With Applied Knowledge and Applied Skills exams assessed by computer based exam, ACCA is committed to continuing on its journey to assess all exams within the ACCA Qualification using this delivery mode.

The question types used at Strategic Professional require students to effectively mimic what they would do in the workplace. These exams offer ACCA the opportunity to focus on the application of knowledge to scenarios, using a range of tools including word processor, spreadsheets and presentation slides - not only enabling students to demonstrate their technical and professional skills but also their use of the technology available to today's accountants.

Time management

ACCA encourages students to take time to read questions carefully and to plan answers but once the exam time has started, there are no additional restrictions as to when candidates may start producing their answer.

Time should be taken to ensure that all the information and exam requirements are properly read and understood.

5. Guide to ACCA examination assessment

ACCA reserves the right to examine any learning outcome contained within the study guide. This includes knowledge, techniques, principles, theories, and concepts as specified. For the financial accounting, audit and assurance, law and tax exams except where indicated otherwise, ACCA will publish *examinable documents* once a year to indicate exactly what regulations and legislation could potentially be assessed within identified examination sessions.

For most examinations (not tax), regulations **issued** or legislation **passed** on or before 31 August annually, will be examinable from 1 September of the following year to 31 August of the year after that. Please refer to the examinable documents for the exam (where relevant) for further information.

Regulations issued or legislation passed in accordance with the above dates may be examinable even if the **effective** date is in the future.

The term issued or passed relates to when regulation or legislation has been formally approved.

The term effective relates to when regulation or legislation must be applied to an entity's transactions and business practices.

The study guide offers more detailed guidance on the depth and level at which the examinable documents will be examined. The study guide should therefore be read in conjunction with the examinable documents list.

For **UK** tax exams, examinations falling within the period 1 June to 31 March will generally examine the Finance Act which was passed in the previous year. Therefore, exams falling in the period 1 June 2021 to 31 March 2022 will examine the Finance Act 2020 and any examinable legislation which

is passed outside of the Finance Act before 31 May 2020.

For additional guidance on the examinability of specific tax rules and the depth in which they are likely to be examined, reference should be made to the relevant Finance Act article written by the examining team and published on the ACCA website.

None of the current or impending devolved taxes for Scotland, Wales, and Northern Ireland is, or will be, examinable.

Additional clarification regarding the impact of the UK leaving the European Union (EU)

For exams in the period 1 June 2021 to 31 March 2022, it will be assumed that the EU acquisition rules continue to apply.

6. Relational diagram linking Advanced Audit and Assurance (AAA-INT) with other exams

This diagram shows links between this exam and other exams preceding or following it. Some exams are directly underpinned by other exams such as Advanced Audit and Assurance (AAA) by Audit and Assurance (AA) and Strategic Business Reporting (SBR). This diagram indicates where students are expected to have underpinning knowledge and where it would be useful to review previous learning before undertaking study.

7. Approach to examining the syllabus

The Advanced Audit and Assurance exam builds upon the skills and knowledge examined in the Audit and Assurance exam. At this stage candidates will be expected to demonstrate an integrated knowledge of the subject. The study guide specifies the wide range of contextual understanding that is required to achieve a satisfactory standard at this level.

Examination Structure

The syllabus is assessed by a three-hour 15 minutes examination

The examination is constructed in two sections. Questions in both sections will be largely discursive. However, candidates will be expected, for example, to be able to assess materiality and calculate relevant ratios where appropriate.

Section A

Section A will comprise a Case Study, worth 50 marks, set at the planning stage of the audit, for a single company, a group of companies or potentially several audit clients. Candidates will be provided with detailed information, which will vary between examinations, but is likely to include extracts of financial information, strategic, operational and other relevant financial information for a client business, as well as extracts from audit working papers, including results of analytical procedures.

Candidates will be required to address a range of requirements, predominantly from syllabus sections A, B, C and D, thereby tackling a real world situation where candidates may have to address a range of issues simultaneously in relation to planning, risk assessment, evidence gathering and ethical and professional considerations. Please note that other syllabus areas, excluding E, may also be drawn on as part of the Case Study.

Four professional marks will be available in Section A and will be awarded based on the level of professionalism with which a candidate's answer is presented, including the structure and clarity of the answer provided.

Section B

Section B will contain two compulsory 25 mark questions, with each being predominately based around a short scenario which may relate to more than one client.

One question will always predominantly come from syllabus section E, and consequently candidates should be prepared to answer a question relating to completion, review and reporting. There are a number of formats this question could adopt, including, but not limited to, requiring candidates to assess going concern, the impact of subsequent events, evaluating identified misstatements and the corresponding effect on the auditor's report. Candidates may also be asked to critique an auditor's report or evaluate the matters to be included in a report which is to be provided to management or those charged with governance.

The other Section B question can be drawn from any other syllabus section, including A, B, C, D and F.

Quality control and ethics

The auditor's assessment of effective quality control procedures and consideration of ethical issue are fundamental to all stages of the audit and therefore these concepts could be examined in any section of the exam.

Current issues

Syllabus section G on current issues may be examined in Section A or B as appropriate. Current issues is unlikely to form the basis of any question on its own but instead will be incorporated into the Case Study or either of the Section B questions dependent on question content and the topical issues affecting the profession at the time of writing.

Total 100 marks

8. Introduction to the syllabus

The aim of the syllabus is to analyse, evaluate and conclude on the assurance engagement and other audit and assurance issues in the context of best practice and current developments .

The Advanced Audit and Assurance (AAA-INT) syllabus is essentially divided into seven areas.

The syllabus starts with the legal and regulatory environment including money laundering, and professional and ethical considerations, including the Code of Ethics and professional liability. This then leads into procedures in practice management, including quality control and the acceptance and retention of professional engagements.

The syllabus then covers the audit of financial statements, including planning and evidence gathering. It then covers the completion, evidence evaluation and review and reporting on an audit of historical financial information. The next section moves onto other assignments including prospective financial information, due diligence and forensic audit as well as the reporting of these assignments.

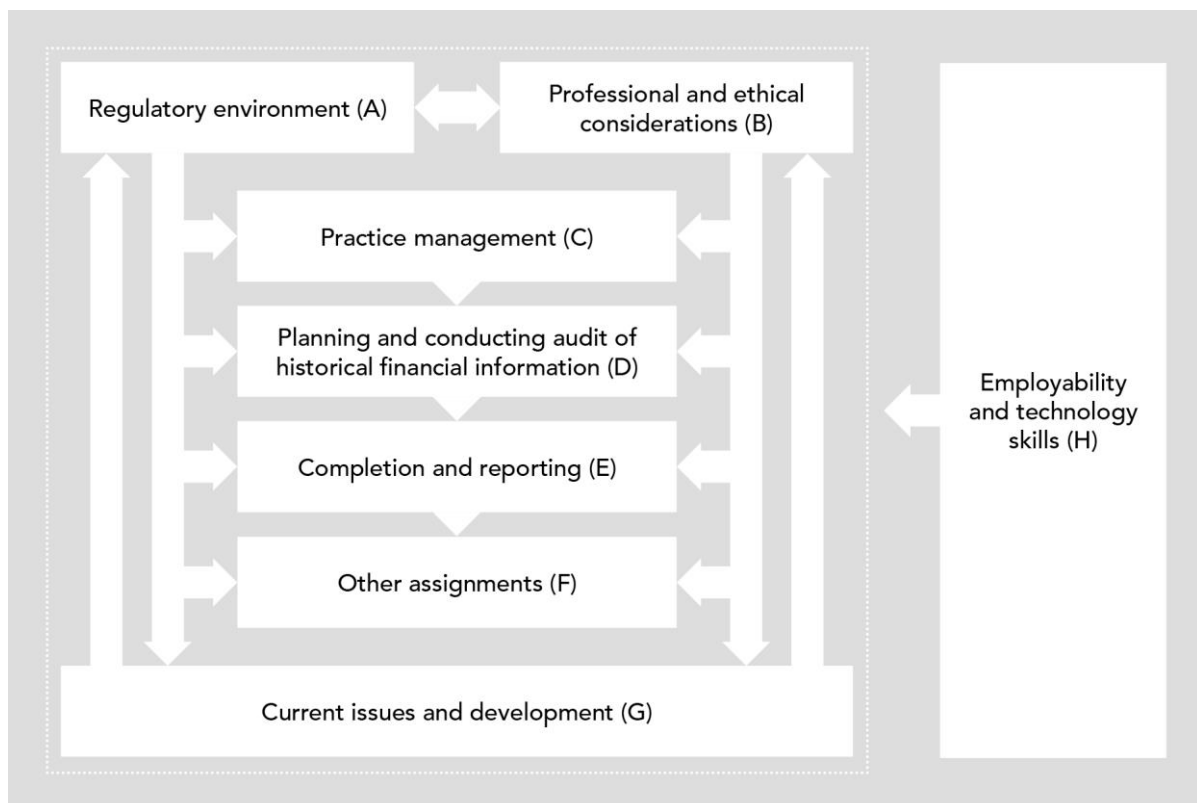

The penultimate section covers current issues and developments relating to the provision of audit-related and assurance services.

The final section of the syllabus contains outcomes relating to the demonstration of appropriate digital and employability skills in preparing for and taking the AAA examination. This includes being able to access and open exhibits, requirements and response options from different sources and being able to use the relevant functionality and technology to prepare and present response options in a professional manner. These skills are specifically developed by practicing and preparing for the AAA exam, using the learning support content for computer-based exams available via the practice platform and the ACCA website and will need to be demonstrated during the live exam.

9. Main capabilities

On successful completion of this exam, candidates should be able to:

- A Recognise the legal and regulatory environment and its impact on audit and assurance practice
- B Demonstrate the ability to work effectively on an assurance or other service engagement within a professional and ethical framework
- C Assess and recommend appropriate quality control policies and procedures in practice management and recognise the auditor's position in relation to the acceptance and retention of professional appointments
- D Identify and formulate the work required to meet the objectives of audit assignments and apply the International Standards on Auditing
- E Evaluate findings and the results of work performed and draft suitable reports on assignments
- F Identify and formulate the work required to meet the objectives of non-audit assignments
- G Understand the current issues and developments relating to the provision of audit-related and assurance services
- H Demonstrate employability and technology skills

This diagram illustrates the flows and links between the main capabilities of the syllabus and should be used as an aid to planning teaching and learning in a structured way.

10. The syllabus

A Regulatory Environment

1. International regulatory frameworks for audit and assurance services
2. Money laundering
3. Laws and regulations

B Professional and Ethical Considerations

1. Code of Ethics for Professional Accountants
2. Fraud and error
3. Professional liability

C Quality Control and Practice Management

1. Quality control (firm-wide)
2. Advertising, tendering and obtaining professional work and fees
3. Professional appointments

D Planning and conducting an audit of historical financial information

1. Planning, materiality and assessing the risk of material misstatement
2. Evidence and testing considerations
3. Audit procedures and obtaining evidence
4. Using the work of others
5. Group audits

E Completion, review and reporting

1. Subsequent events and going concern
2. Completion and final review
3. Auditor's reports

4. Reports to those charged with governance and management

F Other assignments

1. Audit-related and assurance services
2. Specific assignments
3. The audit of social, environmental and integrated reporting
4. The audit of performance information (pre-determined objectives) in the public sector
5. Reporting on other assignments

G Current Issues and Developments

1. Professional and ethical developments
2. Other current issues

H Employability and technology skills

1. Use computer technology to efficiently access and manipulate relevant information.
2. Work on relevant response options, using available functions and technology, as required by the workspace.
3. Navigate windows and computer screens to create and amend responses to exam requirements, using the appropriate tools
4. Present data and information effectively, using the appropriate tools.

11. Detailed study guide

A Regulatory environment

1. International regulatory frameworks for audit and assurance services

- a) Explain the need for laws, regulations, standards and other guidance relating to audit, assurance and related services.^[2]
- b) Outline and explain the need for the legal and professional framework including:^[2]
 - i) public oversight of audit and assurance practice
 - ii) the impact of corporate governance principles on audit and assurance practice
- c) Discuss the role of the audit committee and its impact on audit and assurance practice in relation to:^[2]
 - i) the relationship with the external auditor, including the appointment, removal and monitoring of effectiveness; and
 - ii) the oversight and approval of the provision of non-audit services.

2. Money laundering

- a) Define 'money laundering' and discuss international methods for combatting money laundering.^[2]
- b) Explain the scope of criminal offences of money laundering and how professional accountants may be protected from criminal and civil liability.^[2]
- c) Explain the need for ethical guidance in this area.^[2]
- d) Describe how accountants meet their obligations to help prevent and detect money laundering including record keeping and reporting of suspicion to the appropriate regulatory body.^[2]
- e) Explain the importance of customer due diligence (CDD) also referred to as Know Your Customer (KYC) and recommend

the information which should be gathered as part of CDD/KYC.^[2]

- f) Recognise potentially suspicious transactions and assess their impact on reporting duties.^[2]

- g) Describe, with reasons, the basic elements of an anti-money laundering program.^[2]

3. Laws and regulations

- a) Compare and contrast the respective responsibilities of management and auditors concerning compliance with laws and regulations in an audit of financial statements.^[2]
- b) Describe the auditors' considerations of compliance with laws and regulations and plan audit procedures when possible non-compliance is discovered.^[2]
- c) Discuss how and to whom non-compliance should be reported.^[2]
- d) Recognise and recommend when withdrawal from an engagement is necessary.^[2]

B Professional and ethical considerations

1. Code of Ethics for Professional Accountants

- a) Explain the fundamental principles and the conceptual framework approach.^[1]
- b) Identify, evaluate and respond to threats to compliance with the fundamental principles.^[3]
- c) Discuss and evaluate the effectiveness of available safeguards.^[3]
- d) Recognise and advise on conflicts in the application of fundamental principles.^[3]
- e) Discuss the importance of professional scepticism in planning and performing an audit.^[2]

- f) Consider the ethical implications of the external auditor providing non-audit services to a client including an internal audit service.^[2]
- g) Assess whether an engagement has been planned and performed with an attitude of professional scepticism, and evaluate the implications.^[3]

2. Fraud and error

- a) Identify and develop an appropriate response to circumstances which indicate a high risk of error, irregularity, fraud or misstatement in the financial statements or a given situation.^[2]
- b) Compare and contrast the respective responsibilities of management and auditors for fraud and error.^[2]
- c) Describe the matters to be considered and recommend procedures to be carried out to investigate actual and/or potential misstatements in a given situation.^[2]
- d) Explain how, why, when and to whom fraud and error should be reported and the circumstances in which an auditor should withdraw from an engagement.^[2]
- e) Consider the current and possible future role of auditors in preventing, detecting and reporting error and fraud.^[2]

3. Professional liability

- a) Recognise circumstances in which professional accountants may have legal liability and the criteria that need to be satisfied for legal liability to be recognised.^[2]
- b) Describe the factors to determine whether or not an auditor is negligent and discuss the auditor's potential liability in given situations.^[2]
- c) Compare and contrast liability owed to client with liability owed to third parties (ie contract vs establishing duty of care).^[3]

- d) Evaluate the practicability and effectiveness of ways in which liability may be restricted including the use of liability limitation agreements.^[3]
- e) Discuss and appraise the principal causes of audit failure and other factors that contribute to the 'expectation gap' (e.g. responsibilities for fraud and error) and recommend ways in which that gap may be bridged.^[3]

C Quality control and practice management

1. Quality control (firm-wide)

- a) Explain the principles and purpose of quality control of audit and other assurance engagements.^[1]
- b) Describe the elements of a system of quality control relevant to a given firm.^[2]
- c) Evaluate the quality control procedures which are in place for a given firm and assess if they have been appropriately applied in a given engagement.^[3]

2. Advertising, tendering and obtaining professional work and fees

- a) Evaluate the appropriateness of publicity material including the use of the ACCA logo and reference to fees.^[2]
- b) Outline the determinants of fee-setting and justify the bases on which fees and commissions may and may not be charged for services.^[3]
- c) Discuss the ethical and other professional problems, for example, lowballing, involved in establishing and negotiating fees for a specified assignment.^[3]
- d) Recognise and explain the matters to be considered prior to tendering for an audit or other professional engagement and explain the information to be included in the proposal.^[2]

3. Professional appointments

- a) Explain the matters to be considered and the procedures that an audit firm/professional accountant should carry out before accepting a specified new client/engagement or continuing with an existing engagement, including:^[3]
 - i) client acceptance
 - ii) engagement acceptance (new and existing engagements)
 - iii) establish whether the preconditions for an audit are present
 - iv) agreeing the terms of engagement.
- b) Recognise the key issues that underlie the agreement of the scope and terms of an engagement with a client.^[2]

D Planning and conducting an audit of historical financial information

1. Planning, materiality and assessing the risk of material misstatement

- a) Define materiality and performance materiality and demonstrate how it should be applied in financial reporting and auditing.^[2]
- b) Discuss and demonstrate the use of analytical procedures in the planning of an assignment.^[3]
- c) Evaluate and prioritise business risks, audit risks and risks of material misstatement for a given assignment.^[3]
- d) Interpret the results of analytical procedures, in an unbiased manner and apply professional scepticism to support the identification of contradictory information and assessment of risks of material misstatement.^[3]
- e) Evaluate the results of planning and risk assessment procedures to determine the relevant audit strategy, including the auditor's responses.^[3]
- f) Explain the planning procedures specific to an initial audit engagement.^[2]

- g) Discuss the importance of the auditor gaining an understanding of the entity including the applicable financial reporting framework, its accounting policies, significant classes of transactions, balances and disclosures and the entity's system of internal control and recommend additional information which may be required in gaining that understanding.^[2]
- h) Discuss how transnational audits may differ from other audits of historical financial information (e.g. in terms of applicable financial reporting and auditing standards, listing requirements and corporate governance requirements).^[2]
- i) Recognise matters that are not relevant to the planning of an assignment.^[2]

2. Evidence and testing considerations

- a) Identify and describe audit procedures (including substantive and tests of controls (for both direct and indirect controls)) to obtain sufficient appropriate audit evidence from identified sources to support the relevant assertions and disclosures.^[2]
- b) Assess and describe how IT can be used to assist the auditor, and recommend the use of automated tools and techniques, such as audit software, test data and other data analytics tools where appropriate.^[2]
- c) Evaluate and interpret the results of data analytics tools when used during planning or evidence collection.^[2]
- d) Recommend additional information which may be required to effectively carry out a planned engagement or a specific aspect of an engagement.^[2]
- e) Apply the further considerations and audit procedures relevant to initial engagements.^[2]
- f) Apply analytical procedures to financial and non-financial data.^[2]

- g) Explain the specific audit problems and procedures concerning related parties and related party transactions.^[2]
- h) Recognise circumstances that may indicate the existence of unidentified related parties and recommend appropriate audit procedures.^[2]

3. Audit procedures and obtaining evidence

- a) Design appropriate audit procedures relating to:^[3]
 - i) inventory (including standard costing systems)
 - ii) non-current assets
 - iii) intangible assets
 - iv) biological assets
 - v) investment properties
 - vi) assets held for sale and discontinued operations
 - vii) financial instruments
 - viii) accounting estimates including fair values
 - ix) government grants
 - x) leases
 - xi) impairment
 - xii) provisions, contingent liabilities and contingent assets
 - xiii) borrowing costs
 - xiv) employee benefits
 - xv) share-based payment transactions
 - xvi) taxation (including deferred tax)
 - xvii) related parties
 - xviii) revenue from contracts with customers
 - xix) statement of cash flows
 - xx) business combinations
 - xxi) events after the end of the reporting period
 - xxii) the effects of foreign exchange rates
 - xxiii) segmental reporting
 - xxiv) financial statement notes and related disclosures
 - xxv) earnings per share
 - xxvi) changes in accounting policy
 - xxvii) payroll and other expenses
- b) Explain how the auditor's responsibilities for corresponding figures, comparative financial statements, and 'other information', are discharged.^[3]

- c) Explain the auditor's main considerations in respect of social and environmental matters and how they impact on entities and their financial statements (e.g. impairment of assets, provisions and contingent liabilities).^[2]

4. Using the work of others

- a) Recognise when it is justifiable to place reliance on the work of an expert (e.g. a surveyor employed by the audit client).^[2]
- b) Evaluate the potential impact of an internal audit department on the planning and performance of the external audit.^[2]
- c) Assess the appropriateness and sufficiency of the work of internal auditors and the extent to which reliance can be placed on it. ^[2]
- d) Recognise and evaluate the impact of outsourced functions, such as payroll, on the conduct of an audit.^[3]

5. Group audits

- a) Recognise the specific matters to be considered before accepting appointment as group auditor to a group in a given situation.^[3]
- b) Identify and describe the matters to be considered and the procedures to be performed at the planning stage, when a group auditor considers the use of the work of component auditors.^[3]
- c) Identify and explain the matters specific to planning an audit of group financial statements including: assessment of group and component materiality, the impact of non-coterminous year ends within a group, changes in group structure or a complex group structure.^[2]
- d) Recommend and discuss the communications and content therein to be provided by the group auditor to the component auditor in a given situation.^[3]

- e) Recognise the audit problems and describe audit procedures specific to: a business combination, including the classification of investments the determination of goodwill and its impairment, group accounting policies, intra-group trading, equity accounting for associates and joint ventures, changes in group structure, including acquisitions and disposals, and accounting for a foreign subsidiary.^[3]
- f) In respect of the consolidation process identify and explain the relevant audit risks and audit procedures necessary to obtain sufficient appropriate evidence.^[3]
- g) Consider how the group auditor should evaluate the audit work performed by a component auditor.^[2]
- h) Explain the responsibilities of the component auditor before accepting appointment, and the procedures to be performed in a group situation.^[2]
- i) Justify the situations where a joint audit would be appropriate.^[2]

E Completion, review and reporting

1. Subsequent events and going concern

- a) Design audit procedures to identify subsequent events which may require adjustment to, or disclosure in, the financial statements of a given entity.^[2]
- b) Evaluate indicators that the going concern basis may be in doubt and recognise mitigating factors.^[2]
- c) Recommend audit procedures, or evaluate the evidence that might be expected to be available and assess the appropriateness of the going concern basis in given situations.^[3]
- d) Assess the adequacy of disclosures in financial statements relating to going

concern and explain the implications for the auditor's report with regard to the going concern basis.^[3]

2 Completion and final review

- a) Apply analytical procedures for the purposes of evaluation and review and evaluate the results in the context of other audit evidence.^[3]
- b) Assess whether an engagement has been planned and performed in accordance with professional standards.^[3]
- c) Evaluate whether reports issued are appropriate in the relevant circumstances.^[3]
- d) Evaluate as part of the final review the matters (e.g. materiality, risk, relevant accounting standards) and audit evidence to confirm if sufficient and appropriate evidence has been obtained.^[3]
- e) Justify the review procedures which should be performed in a given assignment, including the need for an engagement quality control review and recommend additional procedures or actions needed in the circumstances.^[2]
- f) Evaluate the use of written representations from management to support other audit evidence.^[2]

3 Auditor's reports

- a) Determine the form and content of an auditor's report and assess the appropriateness of the contents of an auditor's report containing an unmodified opinion.^[3]
- b) Recognise and evaluate the factors to be taken into account when forming an audit opinion in a given situation, including the effect of uncorrected misstatements, and justify audit opinions that are consistent with the results of audit procedures.^[3]

- c) Critically appraise the form and content of an auditor's report in a given situation.^[3]
- d) Assess whether or not a proposed audit opinion is appropriate.^[3]
- e) Advise on the actions which may be taken by the auditor in the event that a modified auditor's opinion is issued.^[3]
- f) Explain the implications for the auditor's report on the group financial statements of an entity where the opinion on a component is modified in a given situation.^[2]
- g) Recognise when the use of an emphasis of matter paragraph, other matter paragraph and KAM disclosure would be appropriate and recommend and justify the content of each.^[3]
- h) Discuss the courses of action available to an auditor if a material inconsistency or material misstatement exists in relation to other information such as contained in the integrated report.^[2]

4. Reports to those charged with governance and management

- a) Critically assess the quality of a report to those charged with governance and management.^[3]
- b) Advise on the content of reports to those charged with governance and management in a given situation.^[3]

F Other assignments

1. Audit-related and assurance services

- a) Describe the nature of audit-related services, the circumstances in which they might be required and the comparative levels of assurance provided by professional accountants and distinguish between:^[2]
- i) audit-related services and an audit of historical financial statements

- ii) an attestation engagement and a direct engagement.
- b) Describe the main categories of assurance services that audit firms can provide and assess the benefits of providing these services to management and external users.^[3]
- c) Describe the level of assurance (reasonable, high, moderate, limited, negative) for an engagement depending on the subject matter evaluated, the criteria used, the procedures applied and the quality and quantity of evidence obtained.^[3]

2. Specific assignment

- **Due Diligence**
- **Review of interim financial information**
- **Prospective financial information**
- **Forensic audits**

For each of the other assignments listed above:

- a) Define and describe the purpose of each type of assignment and analyse the appropriate level of assurance which may be offered by a professional firm in relation to these assignments.^[3]
- b) Evaluate the matters to be considered before accepting the engagement, including any ethical and professional considerations.^[3]
- c) Plan the assignment, applying professional scepticism, to gather suitable evidence and provide an appropriate level of assurance in line with the objectives of the assignment.^[2]
- d) Discuss the level of assurance that the auditor may provide and explain the other factors to be considered in determining the nature, timing and extent of examination procedures.^[1]
- e) Describe and recommend appropriate substantive, examination or investigative procedures which can be used to gather

sufficient and appropriate evidence in the circumstances.^[2]

3. The audit of social, environmental and integrated reporting

- a) Plan an engagement to provide assurance on integrated reporting (performance measures and sustainability indicators).^[2]
- b) Describe the difficulties in measuring and reporting on economic, environmental and social performance and give examples of performance measures and sustainability indicators.^[2]
- c) Describe substantive procedures to detect potential misstatements in respect of socio-environmental matters.^[2]
- d) Discuss the form and content of an independent verification statement of an integrated report.^[2]

4 The audit of performance information (pre-determined objectives) in the public sector

- a) Describe the audit of performance information (pre-determined objectives) and differentiate from performance auditing.^[2]
- b) Plan the audit of performance information (pre-determined objectives), and describe examination procedures to be used in the audit of this type of information.^[3]
- c) Discuss the audit criteria of reported performance information, namely compliance with reporting requirements, usefulness, measurability and reliability.^[3]
- d) Discuss the form and content of a report on the audit of performance information.^[2]
- e) Discuss the content of an audit conclusion on an integrated report of performance against pre-determined objectives.^[3]

5. Reporting on other assignments

- a) Analyse the form and content of the professional accountant's report for an assurance engagement as compared with an auditor's report.^[2]
- b) Discuss the content of a report for an examination of prospective financial information.^[2]
- c) Discuss the effectiveness of the 'negative assurance' form of reporting and evaluate situations in which it may be appropriate to modify a conclusion.^[3]

G Current issues and developments

Discuss the relative merits and the consequences of different standpoints taken in current debates and express opinions supported by reasoned arguments.

1. Professional and ethical developments

- a) Discuss emerging ethical issues and evaluate the potential impact on the profession, firms and auditors.^[3]
- b) Discuss the content and impact of exposure drafts, consultations and other pronouncements issued by IFAC and its supporting bodies (including IAASB, IESBA and TAC).^[2]

2. Other current issues

- a) Discuss current developments in auditing standards including the need for new and revised standards and evaluate their impact on the conduct of audits.^[3]
- b) Discuss current developments in business practices, practice management, audit methodology and evaluate the potential impact on the conduct of an audit and audit quality.^[3]
- c) Discuss the proposed changes to the audit profession and critically evaluate the implications of these changes for

companies and audit firms and their impact on audit process and quality.^[3]

- d) Discuss current developments in emerging technologies, including big data and the use of automated tools and techniques such as data analytics and the potential impact on the conduct of an audit and audit quality.^[3]
- e) Discuss the impact of significant global events on audit practice.^[3]

H Employability and technology skills

- 1. Use computer technology to efficiently access and manipulate relevant information.**
- 2. Work on relevant response options, using available functions and technology, as required by the workspace.**
- 3. Navigate windows and computer screens to create and amend responses to exam requirements, using the appropriate tools**
- 4. Present data and information effectively, using the appropriate tools.**

12. Summary of changes to Advanced Audit and Assurance (AAA-INT)

ACCA periodically reviews its qualification syllabuses so that they fully meet the needs of stakeholders such as employers, students, regulatory and advisory bodies and learning providers.

The main changes which have been made to the syllabus are summarised in the table below.

Table of amendments

A1c)	Discuss the role of the audit committee and its impact on audit and assurance practice in relation to: ^[2] i) the relationship with the external auditor, including the appointment, removal and monitoring of effectiveness; and ii) the oversight and approval of the provision of non-audit services.	Wording of learning outcome extended to include and specifically reference the role of the audit committee in overseeing the relationship with the external auditor.
D1b) and D1c)	b) Discuss and demonstrate the use of analytical procedures in the planning of an assignment. ^[3] a) Evaluate and prioritise business risks, audit risks and risks of material misstatement for a given assignment. ^[3]	Learning outcomes reordered to better reflect planning process and wording of D1c clarified to reflect the requirements of ISA 315 (Revised 2019)
D1d)	Interpret the results of analytical procedures, in an unbiased manner and apply professional scepticism to support the identification of contradictory information and assessment of risks of material misstatement. ^[3]	New learning outcome to specifically reflect the requirements of ISA 315 (Revised 2019) in relation to the use of analytical procedures in risk assessment.
D1e)	Explain the results of planning and risk assessment procedures to determine the relevant audit strategy including the auditor's responses. ^[3]	Learning outcome revised to reflect the requirements of ISA 315 (Revised 2019)
D1g)	Discuss the importance of the auditor gaining an understanding of the entity including the applicable financial reporting framework, its accounting policies, significant classes of transactions, balances and disclosures and the entity's system of internal control and	Learning outcome extended to better reflect the requirements of ISA 315 (Revised 2019) in relation to gaining an

	recommend additional information which may be required in gaining that understanding. ^[2]	understanding of the entity.
D2a)	Identify and describe audit procedures (including substantive and tests of controls (both direct and indirect controls)) to obtain sufficient appropriate audit evidence from identified sources to support the relevant assertions and disclosures. ^[2]	Learning outcome revised to reflect the terminology used in ISA 315 (Revised 2019)
D2c)	Evaluate and interpret the results of data analytics tools when used during planning or evidence collection. ^[2]	New learning outcome regarding the use of automated tools and techniques by the auditor, specifically the use of and output from data analytics.
D3a)	Design appropriate audit procedures relating to: ^[3] viii) accounting estimates including fair values xxiv) financial statement notes and related disclosures	Learning outcome extended for clarity to specifically cover testing around accounting estimates and financial statement notes and disclosures.
E2a)	Apply analytical procedures for the purposes of evaluation and review and evaluate the results in the context of other audit evidence. ^[3]	Learning outcome amended to better reflect exam requirements.
E3a)	Determine the form and content of an auditor's report and assess the appropriateness of the contents of an auditor's report containing an unmodified opinion. ^[3]	Wording amended for clarity and consistency with ISA terminology.
E3b)	Recognise and evaluate the factors to be taken into account when forming an audit opinion in a given situation, including the effect of uncorrected misstatement, and justify audit opinions that are consistent with the results of audit procedures. ^[3]	Wording amended for clarity.
E3g)	Recognise when the use of an emphasis of matter paragraph, other matter paragraph and KAM disclosure would be appropriate and recommend and justify the content of each. ^[3]	Wording amended for clarity.
F2c)	Plan the assignment, applying professional scepticism, to gather suitable evidence and provide an appropriate level of assurance in line with the objectives of the assignment. ^[2]	Wording of learning outcome extended to demonstrate the importance of

		professional scepticism to all assignments.
G2c)	Discuss the proposed changes to the audit profession and critically evaluate the implications of these changes for companies and audit firms and their impact on audit process and quality. ^[3]	New learning outcome regarding the impact of ongoing audit reform proposals.
G2e)	Discuss the impact of significant global events on audit practice. ^[3]	New learning outcome regarding the impact of global events on the audit profession.
